Full Stack JavaScript Developer | React.js • Next.js • Node.js •  
TypeScript • Flutter • Python • Fast API • AWS | Building Scalable  
Web Applications | Exploring AI Engineering | Open to Remote  
Opportunities

Gorakhpur, Uttar Pradesh, India

## Summary

I'm a Full Stack JavaScript Developer with 4+ years of experience building scalable, user-centric web applications using React.js, Next.js, Node.js, Express.js, TypeScript, and AWS. I enjoy transforming complex business requirements into clean, responsive, and high-performance applications. Throughout my career, I've worked on products across FinTech, AI-powered education, e-commerce, HRMS, and inventory management, contributing to both frontend and backend development. My expertise includes:

- React.js, Next.js, TypeScript, JavaScript (ES6+) • Node.js, Express.js, REST APIs • Material UI, Tailwind CSS, Bootstrap • MySQL, MongoDB, DynamoDB, Firebase • AWS Amplify, Lambda, S3, Cloud Functions • Git, Agile/Scrum, Jira

I'm passionate about writing maintainable code, building reusable components, improving application performance, and continuously learning modern technologies. I'm always interested in collaborating on impactful products and exploring opportunities where I can contribute, learn, and grow as a software engineer. Let's connect! I'm open to discussing software development, React, Next.js, full-stack engineering, and exciting opportunities.

---

## Experience

### Codacpoint

Software Developer

July 2025 - Present (1 year 3 months)

Engineered 7+ reusable UI components using Next.js, TypeScript, Material-UI, cutting duplicate frontend code by 25%.

Built interfaces for CyberService and AI-powered NOVO LOB, integrating AI-assisted assignment generation and progress tracking workflows.

Developed the NOVO LOB React Native mobile app, extending core web platform features to Android and iOS. Developed reusable custom hooks for

API integration and authentication, improving code reusability, maintainability, and consistency across application modules.

## WeboConnect

### MERN Stack Developer

December 2024 - March 2025 (4 months)

Remote

Redesigned and refactored the Work Timer application by developing new UI modules, consolidating role-based routes into a unified architecture, and implementing a reusable service layer to improve scalability and maintainability.

Developed full-stack features for the Best Embroidery e-commerce platform, including an Admin Dashboard and product customization functionality using React.js, Node.js, Express.js, and MongoDB.

## Code Symphony LLP

### Full-stack Developer

August 2022 - December 2024 (2 years 5 months)

Jamnagar

Developed CrediArc, an AI-powered credit risk platform using React.js, AWS Amplify, Lambda, DynamoDB, S3 for financial analysis and recommendations. Designed scalable dashboards supporting 20+ interactive visualizations while optimizing rendering performance. Built PINCC, automating client onboarding using React.js, Firebase Firestore and Cloud Functions, cutting manual effort by 60%.

Developed reusable React Native components for QBasis and implemented REST APIs for Summair Sport Club using Node.js and Express.js.

## Athmin Technologies

### Associate -Member Of Technical Staff

December 2021 - April 2022 (5 months)

Remote

Implemented CRUD operations for Pronnel, an HR system (Angular), and built an automated exam submission counter.

## Sunfood Overseas - India

### Intern

August 2019 - November 2019 (4 months)

NIFTEM PILOT PLANT

Production and maintenance training in fruit and vegetable Niftem Pilot Plant. It include machines operation and Cleaning in place(CIP)

## Agriculture and Agri-Food Canada

### Intern

June 2019 - July 2019 (2 months)

Ontario, Canada

### Foreign Exposure Program

Project Title- The Use of Active Packaging Technologies to enhance safety and extend shelf life of fresh beef.

Trained to work in Containment Level 2 laboratories.

## Damodar Valley Corporation

### Trainee

July 2014 - July 2014 (1 month)

Mejia Thermal Power Station Bankura, West Bengal

Undertaken vocational training in Mejia Thermal Power Station. Detailed studies of Plant cycles as well as various machineries and equipments have been made.

---

## Education

National Institute of Food Technology Entrepreneurship and Management, Haryana

M.TECH, FOOD PLANT OPERATIONS MANAGEMENT · (2018 - 2020)

### JSS Academy of Technical Education

B.Tech, Mechanical Engineering · (2011 - 2015)

Little flower school, Gorakhpur

12th, PCM · (2009 - 2010)

Little flower school, Gorakhpur

10th · (2007 - 2008)

### JSS Academy of Technical Education

Bachelor of Technology, Mechanical Engineering
